Is there an extra fee for the first visit?

There could be depending what is required on our initial
visit.

First time clean-ups generally require more time and contain
more waste.

To help us determine an accurate quote there are two questions
we always ask:

How long since your yard was last cleaned?

How many dogs do you own?

These two things factor heavily into whether an initial clean up fee will need to be applied upon our very first service.

The same rates as a one time clean are in effect for the initial clean.

Do we have to be home during service and do our dogs need to be inside?

It is not necessary for you to be home.

If you are home when we arrive,

we would be more than happy to introduce ourselves, meet your dogs, and discuss any special concerns you may have.

Your dogs are not necessarily required to be inside when we are there

but that really depends on your dogs and your preference.

The information we collect about your pets at sign-up will let us know if this is required.
